Early-Stage Researcher

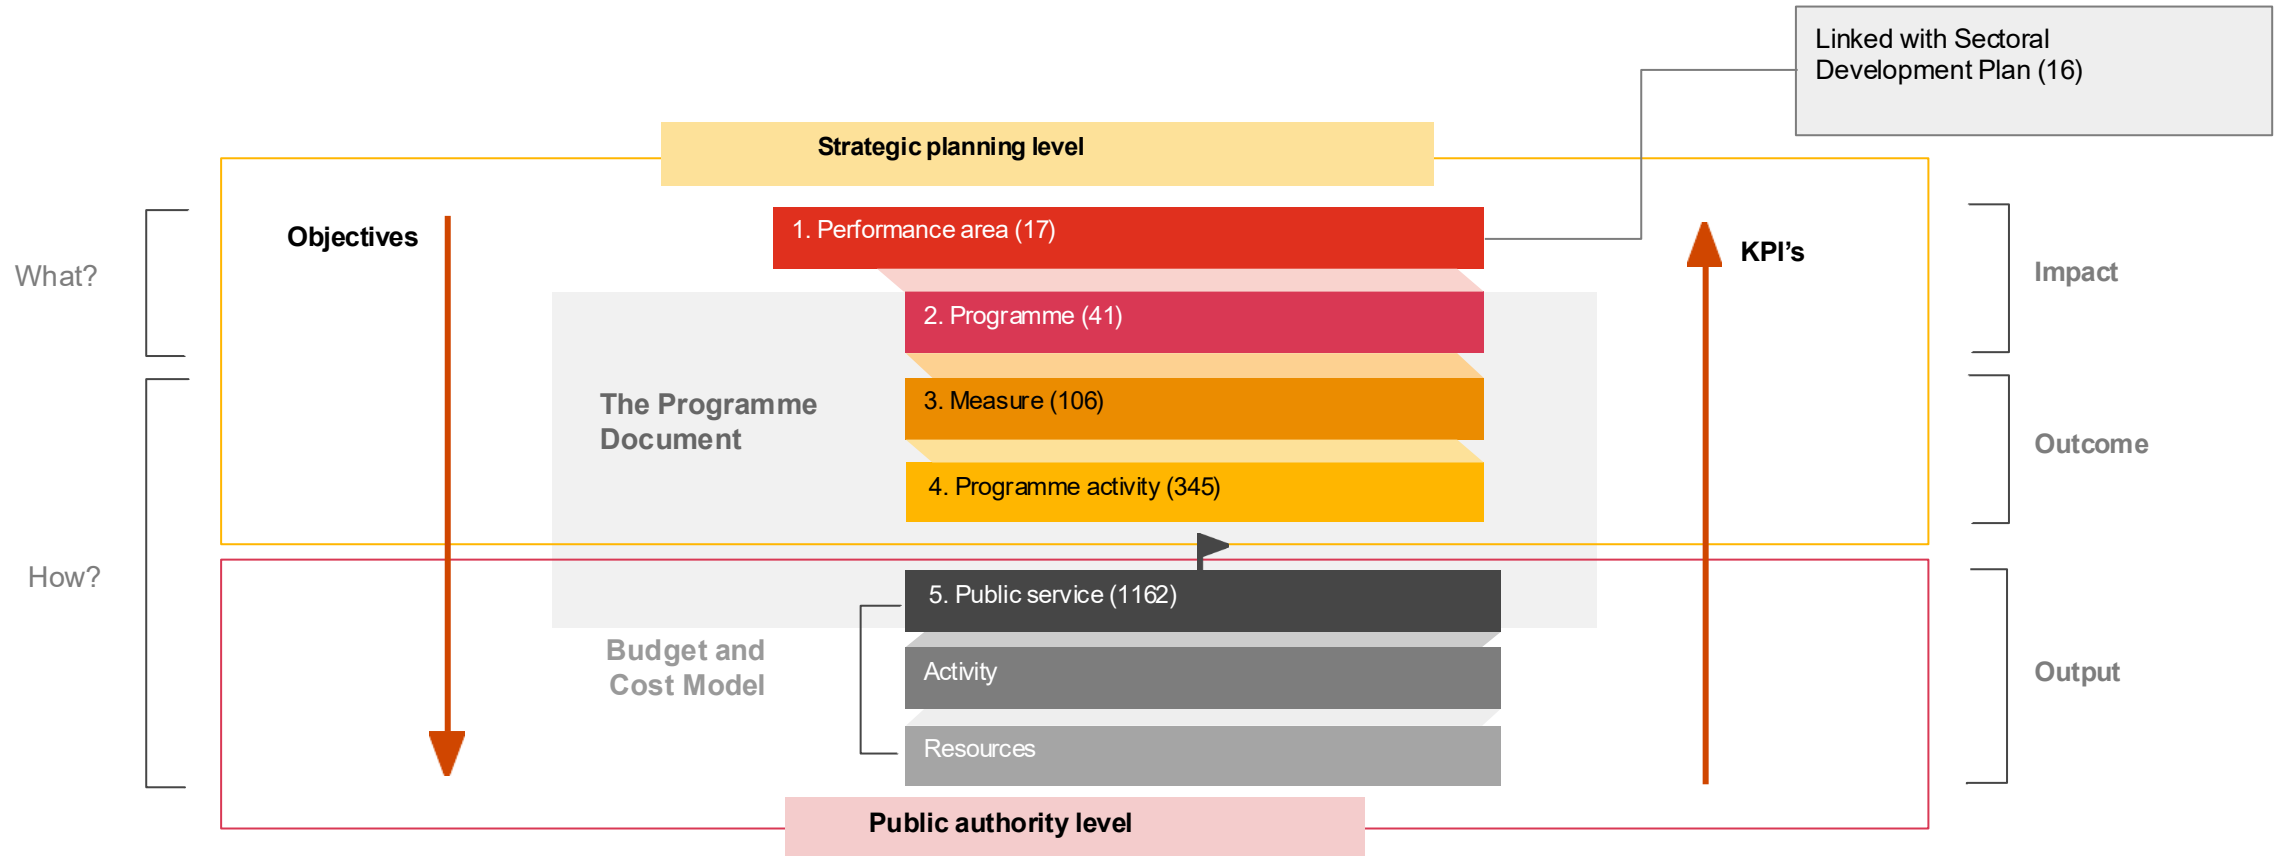

NextGen Digital State Research Group / School of Information Technologies

Tallinn University of Technology

PREREQUISITES FOR SUCCESS

STRATEGY ALIGNMENT WITH THE PUBLIC SERVICES

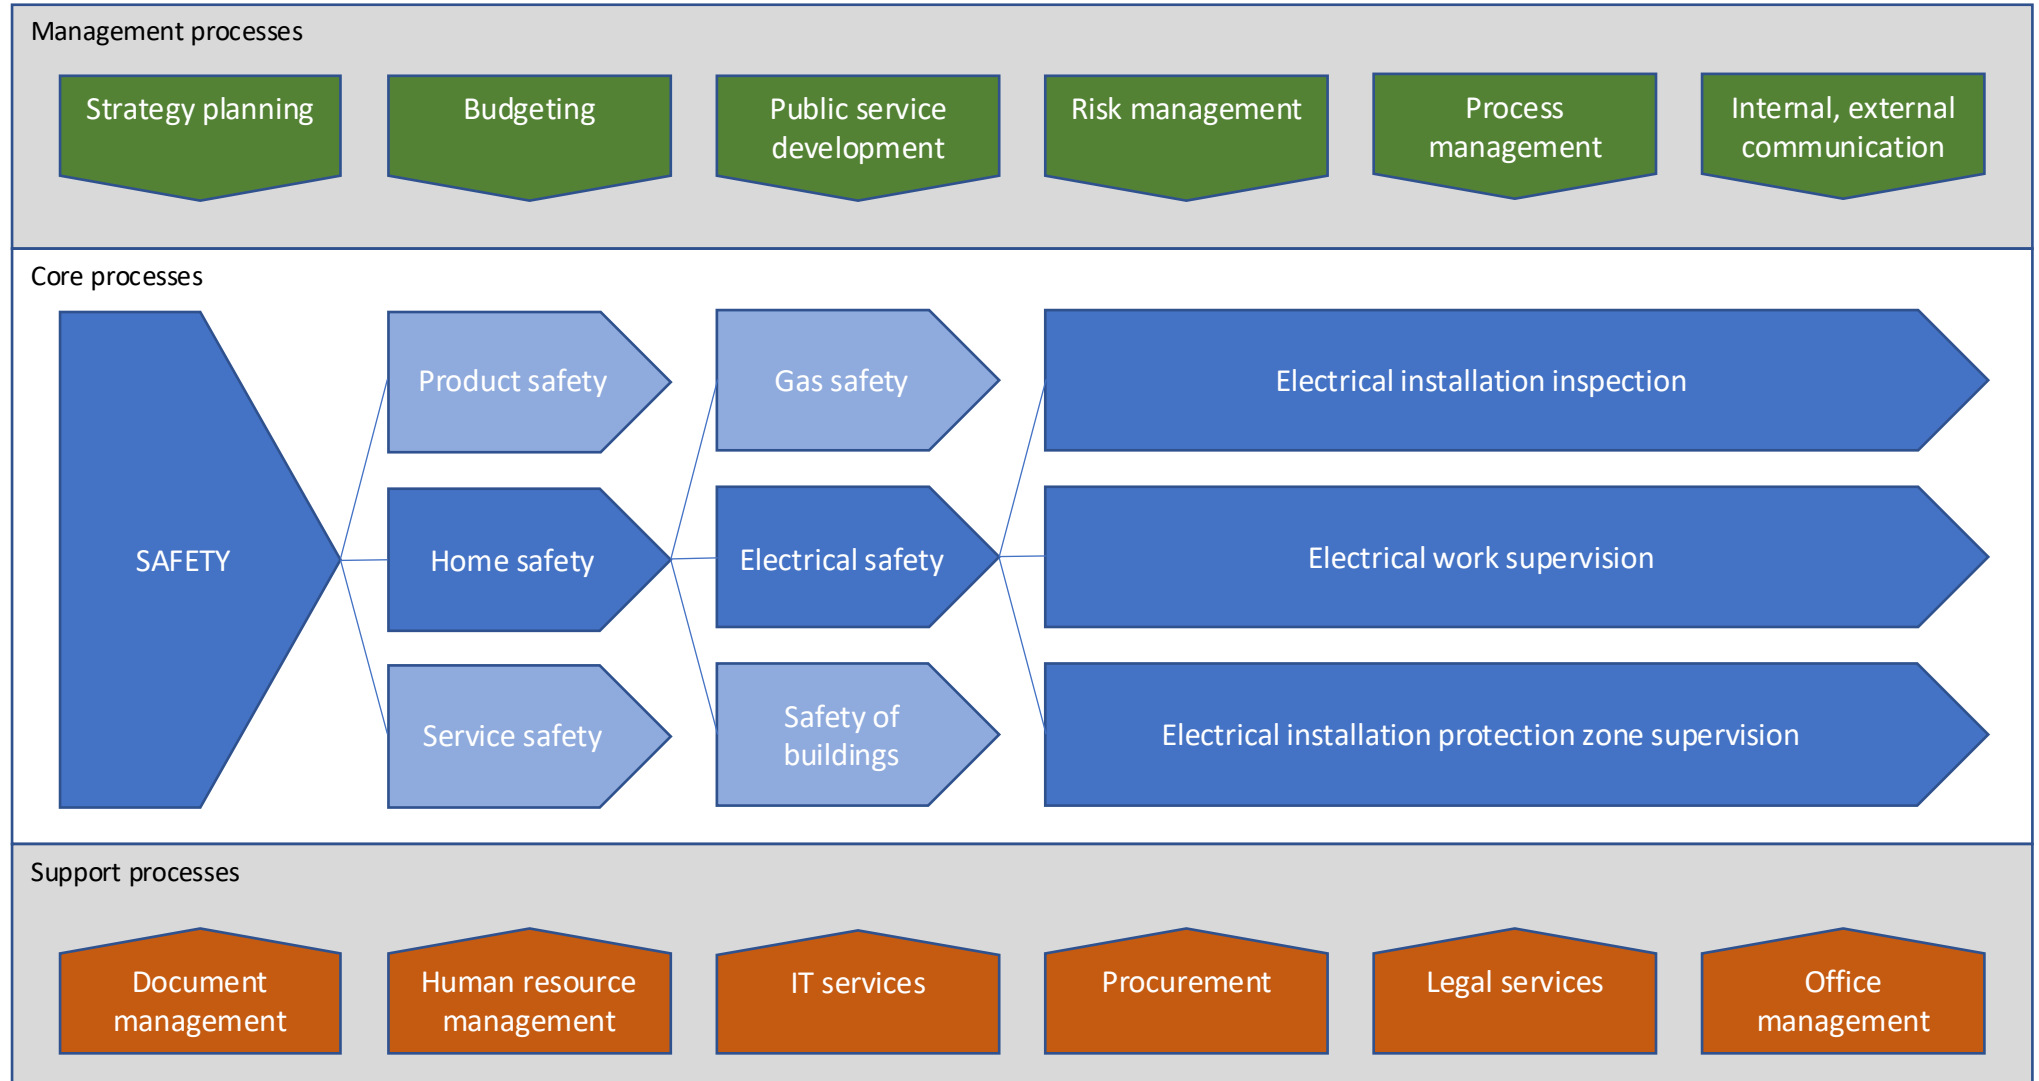

Source: Ministry of Finance, statistics as of September 2021 for the State Budgeting period 2022-2025

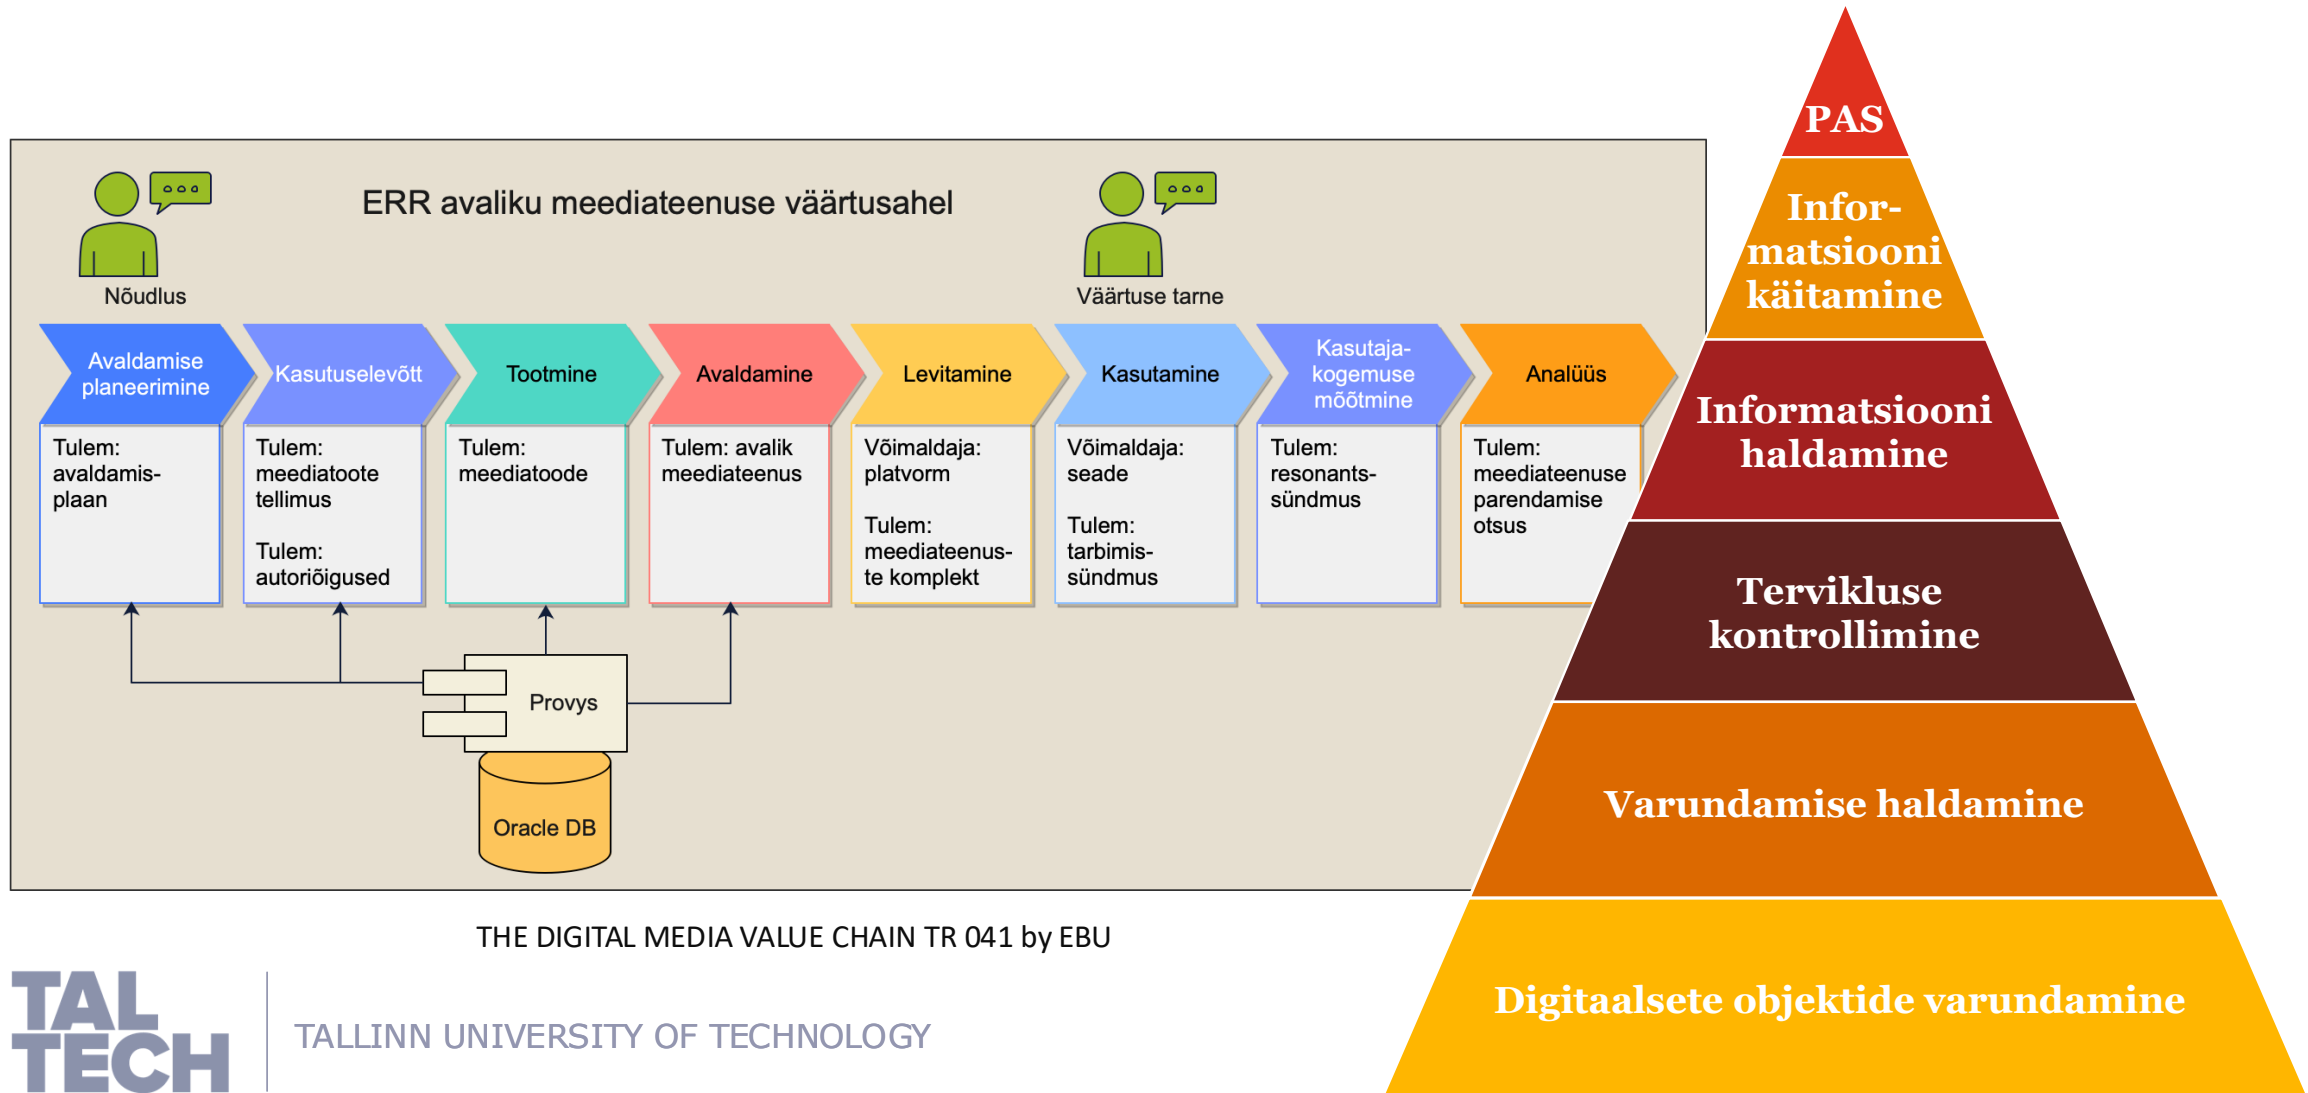

LEADERSHIP CHALLENGES

- Organisational interoperability
 - Organisational interoperability refers to the ability of different organisations (also Business vs IT) to work together efficiently towards common goals by aligning their processes, responsibilities, and strategies. It involves the coordination of business processes and practices to ensure that various organisations, whether public or private, can cooperate seamlessly in the delivery of services, share information effectively, and achieve mutual objectives.
- Digital transformation = change of the management mindset.

VALUE CHAIN OF THE THE CONSUMER PROTECTION AND TECHNICAL REGULATORY AUTHORITY

EXAMPLE BY THE ESTONIAN NATIONAL BROADCASTING: VALUE STREAMS AS THE TOOL FOR ORGANISATIONAL INTEROPERABILITY

THE DIGITAL MEDIA VALUE CHAIN TR 041 by EBU
